SUMMARY

• Web developer with a focus on creating fast, modern, and user-friendly websites and applications.
• Founder of WebNest, delivering clean, responsive, and well-structured digital solutions.
• Committed to continuous learning, currently advancing skills in full-stack development and computer science.

SKILLS

• **Web Technologies:** HTML, CSS, JavaScript, TypeScript, React, Next.js, Bootstrap, Tailwind, etc.
• **Tools:** Git, Github, VS Code, Figma
• **Others:** Responsive Design, API Integration, Deployment, etc.

PROJECTS

DNA Bio Lab   08/2023 - 09/2023
https://dnabiolab.net/
A diagnostic lab website for DNA Biolab, built using HTML, CSS, and JavaScript.

• Developed and deployed the complete website for one of Bangladesh's fastest-growing molecular diagnostic labs.
• Designed a clean, responsive layout highlighting services, test info, and home sample booking.
• Made it easy for users to explore the lab's mission, tech, and health services online.

EXPERIENCE

Front-End Developer   02/2025 - Ongoing
WebNest

• Focused on creating modern, user-friendly websites.
• Developed and launched multiple client websites, focusing on clean design and smooth functionality.
• Managed all aspects of front-end and back-end development, ensuring responsive and optimized performance.
• Integrated custom features and APIs to enhance user experience and website functionality.
• Worked directly with clients to understand their needs and deliver tailored web solutions.
• Continuously improved existing projects, implementing feedback and adding new features for better performance.
